Product Name:

Spot Welding Dent Pulling System

Product Code: KGLOB10239001

Description:

Spot Welding Dent Pulling System

Technical Specification:

Input Voltage220V/380VInput Power22kVAInput Current58AOutpur Voltage6-12VWelding Thickness0.8+1.2mm

Duty Cycle 35%

Dimension 600x470x960 mm

Weight 68 kg

Easy moving and operating; esthetical design; high power output; functions such as vertical pulling, heating/contract sheet plate, spot welding, stud, plate cutting, meson, flatten etc.

Achieve the best welding result by micro processor control, advanced digital control tech, and special personalize design due to choose the suitable welding strength.

Features:

- Voltage monitor automatically.
- Over-heat protection.
- Adopt curve silicon steel chip and relay
- Adopt precise time adjustment system.
- Various pulling power devices and different welding torches.
- Without dismantling the vehicle.it is the most ideal and necessary equipment for auto maintenance.
