

Product Name : AC Recycling Machine	Product Code : KGLOB1103001
---	---------------------------------------

Description :

AC Recycling Machine

Technical Specification :

Dimension	H35xW19xD24 Inch
Oil Separator	Stainless Steel
Charging Hoses	6 Feet
Weight	85 kg
Chaises	Powder Coated, Sheet Metal
Power	220 V AC 50 hurts
Compressor	1/5 sealed hermetic
Display	LCD Illuminated
Controls	Membrane Key Pad
Storage Tank Capacity	10 kg
Pressure Gauges	3 No. Up to 500 psi

We are engaged in offering Vehicle AC Recycling Machine.

Features:

-
- Fast recovery
 - Complete recovery up to 95%.
 - Complete vacuum up to 28 hg
 - Gas charging at required quantity
 - Fully automatic operation
 - Sequential automatic operation
 - Fully programmable for customize operation
 - Auto cut on recovery, vacuum, recharging, oil separation, air purge & oil charge
 - Separate menu pages for simple operation
 - All operations can be operate individually in manual mode
 - Heavy duty in built pressure compressor for instant leak detection
 - All microprocessor controlled for error free operation
 - Smallest machine for space saving
 - Easy to maintain
 - Easy to read LCD display
