

**Product Name :**  
Automotive Leak Locator

**Product Code :**  
KGLOB1104001

**Description :**

Automotive Leak Locator

**Technical Specification :**

Max Power Rating	2650W
Container Capacity	80 Ltr
Vacuum	230 mbar
Noise Level	60 dba
Voltage	230V
Weight	25 kg

**Simple To Operate:**

The Smoke Automotive Leak Locator is easily controlled with a timer setting and flow control. Set the timer then the machine will generate smoke, and control the flow with the flow controller. The output is regulated to 12-14 Inches of Water Column, this pressure is perfect to perform leak test of EVAP system and other automotive systems with no damage to the vehicle sealing.

**Save time and fast leak detect:**

In most cases, a scan tool may find out pressure sensors abnormal etc., while actually the 'pressure low' problem is caused by leak somewhere.

**Multi-function:**

The Smoke Automotive Leak Locator is a multi purpose tool essential for EVAP system but also applicable for:

---

EGR valves. Gaskets & Fittings, Hoses, Worn Throttle shafts. Break Boosters. Catalytic Converters, Oil Leaks, Lamp Housings, manifolds and more...

**LED time indicator, Adjustable airflow and 1 ~ 20 minutes adjustable operating time:**

Adjustable timer and air flow to perform leak test on different system that requires different flow amount.

**Inbuilt airpump:**

Performing leak test with no air compressor, which may not be available for every workshop.

**Function:**

- Vacuum Leak Test
- Exhaust Leak Test
- Under Dash Leaks
- EVAP Leak Test
- Manifold Leak Test
