

Product Name :
 Steam Vacuum Cleaner

Product Code :
 KGLOB1106001

Description :

Steam Vacuum Cleaner

Technical Specification :

Air Aromatization Yes
 Voltage (V) 230
 Weight (kg) 20kg
 Automation Grade Automatic
 Boiler Capacity (L) 2
 Pressure (Bar) 5
 Condition New
 Boiler Pressure (bar) 5
 Tank Capacity (l) 2
 Boiler Temperature (deg. Celsius) 190
 Frequency (Hz) 50
 Temperature (deg. Celsius) 2150
 Cleaning Type Steam
 Boiler Power (W) 3kw
 Number Of Wheels 4
 Cable Length (m) 5
 Power Source Electric
 Color Silver

Temperature 148 Degree C

Weight 9 kg

Power 1400W

steam Vacuum cleaner is a professional steam generator and generates a pressure of 5 bar of steam in continuous fashion. this steam cleaner generates steam at 150deg centigrade. the machine also has a feature of Vacuum with heavy duty Vacuum motor which can be used with water curtain as a filter where all the dust can be collected. so you can actually steam and Vacuum at the same time with the help of different adapters provided with machine.
