

**Product Name :**  
 Steam Vacuum Cleaner

**Product Code :**  
 KGLOB1106001

**Description :**

Steam Vacuum Cleaner

**Technical Specification :**

Air Aromatization Yes  
 Voltage (V) 230  
 Weight (kg) 20kg  
 Automation Grade Automatic  
 Boiler Capacity (L) 2  
 Pressure (Bar) 5  
 Condition New  
 Boiler Pressure (bar) 5  
 Tank Capacity (l) 2  
 Boiler Temperature (deg. Celsius) 190  
 Frequency (Hz) 50  
 Temperature (deg. Celsius) 2150  
 Cleaning Type Steam  
 Boiler Power (W) 3kw  
 Number Of Wheels 4  
 Cable Length (m) 5  
 Power Source Electric  
 Color Silver

---

Temperature 148 Degree C  
Weight 9 kg  
Power 1400W

steam Vacuum cleaner is a professional steam generator and generates a pressure of 5 bar of steam in continuous fashion. this steam cleaner generates steam at 150deg centigrade. the machine also has a feature of Vacuum with heavy duty Vacuum motor which can be used with water curtain as a filter where all the dust can be collected. so you can actually steam and Vacuum at the same time with the help of different adapters provided with machine.
