

Product Name :
Rice Flour Mill Milling Machine

Product Code :
KGLOB10246001

Description :

Rice Flour Mill Milling Machine - Agro Processing Machines

Technical Specification :

Rice Flour Mill Milling Machine Combined Rice Mill cum Pulverizer can be used for dual purposes like milling of rice and powdering of dry materials like all kinds of masalas, grains and spices. It benefits to small-scale farmers.

- A combined machine can be used for dual purpose.
- Reversible motor design.
- Easy to use, carry and operate.
- Suitable for residential usage, NGOs, self-help groupings, and small-scale business. It can benefit small-scale farmers

- Product Type: Rice Mill cum Pulverizer
- Brand: Imported
- Rated Power: 3 HP
- Voltage: 220 V
- Motor: Single Phase
- Winding: Copper

-
- Blade Type: Hammer Mill
 - RPM: 2800
 - Productivity kg/h: 150-170 kg/hr (Rice Mill), 60-70 kg/hr (Pulverizer)
 - Electric Power Consumption: 3 units/hr
