Safety Vest and Helmet

**Technical Specification :**

Fluorescent orange safety vest have 2" width tape along the chest, shoulders and back to give you 360° protection. The hard hat, with its distinctive design, is known for comfort, quality, and durability. Dual protection provides better protection.

All Ridgeline hard hats are made from ABS thermoplastic resin, which combines strength and rigidity. This material is ultra-lightweight, making Ridgeline hard hats some of the lightest on the market today-up to 10 percent lighter than hard hats using traditional materials. ABS material is considered superior for its hardness, gloss, toughness, and electrical insulation properties.

The adjustable harness points allow you to adjust the harness forward, backward giving you the perfect fit for customized comfort. A vented pressure pad, replaceable and washable sweatband, and the adjustable, padded swinging rear suspension provides ultimate comfort and a secure fit.

This safety vest comes with 4 Pockets : pens, mini notebook on the left chest, 1 PVC ID card on the right and more tools on the 2 lower external pockets.
