

Product Name :
4 Car Scanner

Product Code :
KGLOB10264004

Description :

4 Car Scanner

Technical Specification :

Memory	16M
Voltage	DC12V
Power	9W
Display Screen	240X320 LCD with touch screen
Ambient Temperature	0-50 Degree C
Relative Humidity	Less than 90%

Introduction IV is an classic , economical, simple, stable and durable vehicle diagnostic tool newly released It follows the open operating platform and it also inherits many advantages diagnostic technology including a wide coverage of vehicle models, powerful testing functions and accurate test data. Meanwhile , the unique rotatable diagnostic adaptor design is convenient for operation. Its a cost-effective diagnostic, product in the market. The side and bottom parts adpot rubber cover design and TPU material , for better protection of the product. Rubber cover design makes the product more industrial , suitable for use in garage.Integrated high speed thermal printer thermal printer is high speed , low noise , fine printed quality, convenient for paper replacement.
