

Product Name : High Pressure Car Washer	Product Code : KGLOB10265004
---	--

Description :

High Pressure Car Washer

Technical Specification :

Motor Power	3 hp
Pressure Capacity	10-80 Bar 150-1200 Psi
Portable	Yes
Type	Compact
Speed	1400 rpm

We make our own motors to drive these high-pressure pumps since conventional motors are made to do all kinds of job a motor can do, whereas our motor is specialized in doing the job to produce heavy and steady water pressure. These pressure pumps are installed on a heavy-duty metal frame for steady working pressure. Our high-pressure washers come with a total stop cut off function along with the starter and an input filter.

A 10-meter high-pressure delivery hose is attached to a 40-degree nozzle lance with a 360-degree moving trigger gun for comfortable washing. All in all our pressure washer is a complete definition of high-pressure washers available.

High-pressure washers made by us comes in different pressure ranges for different applications, we also do customization of the high-pressure washers as per client's requirements from car washing to industrial cleanings these pressure washers will be handy to do its job efficiently.
