

Product Name :
Cultivator

Product Code :
KGLOB10270003

Description :

Cultivator

Technical Specification :

Operation similar to chisel plough – but different goals.
Used to ‘Complete’ Tillage operations.
Works near the surface and disturbs the soil in careful pattern by producing staggering pattern.
Stir and pulverize the soil. (aerate the soil – before planting; weed control – after planting)
Preparation of proper seedbed, burying the crop residue, warming the soil.
Mix and incorporate the soil to ensure growing crop has enough water and nutrition.
Consequently cultivating takes less power per shank than chisel plough.
