

Product Name :
Mould Board Plough

Product Code :
KGLOB10270004

Description :

Mould Board Plough

Technical Specification :

Right handed bottoms – Turns the soil to the right.

Used where soil inversion is necessary.

Cuts, partially or completely inverts a layer of soil to bury surface materials & pulverize the soil.

Most important implement for areas with too much weed – Canal irrigated or rain fed areas.

Least damage to soil structure.

Follow-up with secondary tillage (harrowing) necessary to allow uniform incorporation of fertilizers and pesticides & smoothing of the soil.
