

Product Name :
Relief Outdoor Storage Cabinet

Product Code :
KGLOB22211035

Description :

Relief Outdoor Storage Cabinet

Technical Specification :

- 1:CBM is small to save many ocean freight
- 2:Blowing producing technique by HDPE plastic
- 3:Plastic shed wall and floor by 3 cm thickness
- 4:Window and skylight material by PC
- 5.Undertake the government tender projects
- 6.Patent products

The Room uses a sloping roof to help drain the water. The shed is made of HDPE and has the function of waterproof, moisture-proof and UV-resistant. The slanted vents block rain from entering the house even in rainy weather.

A fixed window and skylight give you plenty of light to see what while the high-mounted ventilation panel helps prevent the buildup of fumes or musty odors. Your possessions will stay safely inside once you've added a lock to the robust metal door latch. Assembly is simple with standard tools,
