

Product Name :
Pants

Product Code :
KGLOB22214007

Description :

Pants

Technical Specification :

Be it boxers for men or those shorts for women, it comes as a relief during the summers. It is breezy and comfortable and makes up for the night wear. After all who does not want to slip into a comfortable pair of pants at the end of the day? Agreed that jeans amplify the style quotient, but nothing beats the comfort of those night pants after a tough long day.

Be it boxer pants, night suit pants, track pants, Bermudas, or regular half pants, they are hands-down the most comfortable clothing discovered by mankind. Choose a pair in cotton which has a better look and feel. The lighter the better it gets. It helps you skin breathe freely without causing the sweat to get trapped and cause infections.

Choose one with elastic bands at the waist or the ones with adjustable threads at the waist for a more comfortable usage. Pants can be paired with a quirky pair of t-shirts or tops for men and women respectively to maintain the style if you are fashion wise conscious as well.
