

Product Name :
T Shirts

Product Code :
KGLOB22214008

Description :

T Shirts

Technical Specification :

T-shirts are a safe alternative to those tops, blouses and shirts which are an obligation at formal places. T-shirts scream informal out loud and are considered as a quintessential requirement for the wardrobe.

Be it meeting your friends, going for a party or just lazing around in the house, t-shirts are unavoidable. They are comfortable, stylish and easy to maintain. Throw in a pair in the washing machine with skin friendly detergent and you are sorted. It doesn't require any extra maintenance such as dry cleaning or bleaching in general. Pick out a t-shirt in a material you like. It could be silk, nylon, cotton or even silk cotton depending on the weather. Most of the companies do not roll out t-shirts in other fabrics other than cotton because honestly it is one of the breeziest fabrics to deal with.
