Description :

Squatting Plates

Technical Specification :

Squatting plates are used widely across domestic and medical industry. Imagine a squat plate customized perfectly for your ageing parents who have trouble squatting or sitting down for bowels. It could be fixed in a structure which can be then designed accordingly to make the process comfortable for them.

Knee issues, orthopedic issues which make it difficult for people to squat, squat plates are helpful in such cases. You can be thoughtful and get a set of plates such that it used according to the requirement. Strong, sturdy and durable, the squat plates are meant to be reused. Clean it as you please and it is simpler to do so.

Use good quality detergent and washable fabric to clean the dirt after use. It comes with handles which makes handling easier and more comfortable. Since the material is made out of superior quality plastic, it is long lasting and can be used through several years. Additionally, it does not contain any toxins which would be harmful to the residents of the house.
