

Product Name :
Hurricane Lamps

Product Code :
KGLOB22214032

Description :

Hurricane Lamps

Technical Specification :

Commonly known as lantern in many parts of the world, this one has been effectively in use since its inception. In the initial days it was used as a power backup when there used to be frequent power-cuts. However, cities have moved on to different sources of power such as invertors and power backups, however, there are chances when you run out of these and anyway have to go back to using traditional fuel and wick-based lamps such as the hurricane lamps.
