

Product Name :
Plastic Sheeting

Product Code :
KGLOB22211043

Description :

Plastic Sheeting

Technical Specification :

Plastic sheeting is quite useful in many industries and companies. These sheets are durable and ensure protection to essential items during harsh climatic conditions, dust, dirt and much more. This is also used for packaging purposes and many construction companies use the high quality plastic sheeting. We offer variety of size and proper thick sheeting as we know the thicker is the plastic sheeting, the stronger it will be. Durability and strength are the main factors we focus on.

These sheets can also be used as vapor barrier. Sometimes moisture or vapor can ruin the item due to unnecessary growth of bacteria and mold. These sheets can be useful in preventing these items from any damage. It plays an important role in offering plastic protection and used in window films, vapor retarders, counter top protection, flooring protection, and roofing protection as well.
