

Product Name :
Relief Handpump VLOM-65 MKIII-65 Variant 1 Tele

Product Code :
KGLOB22214090

Description :

Relief Handpump VLOM-65 MKIII-65 Variant 1 Tele

Technical Specification :

Above ground kit of Deepwell Hand Pump - VLOM-65 (as specified by the Bureau of Indian Standards, IS: 15500-2004), also known as INDIA MARK III hand pump (by SKAT International Specifications Rev.2 - 2007), and sometimes as Mark III, with:

Head, Handle, Water Tank, Telescopic Standard Stand

VLOM 65, and with Open Top Cylinder, but without Riser Pipes and Connecting Rods.

FORESEEN FOR: 65 mm ND uPVC riser pipe with Stainless Steel Couplings, not included

AND FOR: SS connecting rods with threaded couplers, (same length) not included. W/reference to UNICEF Catalogue Material Number S0009155.

The VLOM-65/India Mark III hand pump features essentially the same above-ground equipment as the SDWP/India Mark II pump type, hot dipped galvanized manufactured as per IS 15500-2004, complete, but adapted for below ground 65 mm ND riser pipes. And the VLOM-65 hand pump is equipped with Open Top Cylinder.

The pump type is suitable for pumping water up to 39-40 meters, the range must however not exceed the maximum installation depth of 45 m.

This description covers the pump without the riser pipes and connecting rods.

The riser pipes are to be ordered separately (Catalogue Number S0009155), being special design uPVC Riser pipes with integrated Stainless Steel couplers, ND 65 mm, 3 m long. The Connecting rods are of Stainless steel, 10.8 mm diameter, 3 m long, with M12 threaded ends, centralizers and couplers.
