

Product Name : Automatic Shrink Packing Machine	Product Code : KGLOB10011018
---	--

Description :

Automatic Shrink Packing Machine

Technical Specification :

Automatic label shrinker is a newly design set. It insert the label onto the bottle surface and shrink the label properly. It is easy to operate for adopting man-machine interface.

- Trait
- The machine adopts human/ machine interface controller for user-friendly operate.
 - Can be use with production line
 - Special designed knife plate id change with the rated specifications
 - Convenient change of specifications with the use of tools
 - Forced insertion design proves reasonable and convenient. Integrates adjustment more convenient
 - Accommodates film paper core size 5-10
 - Suitable foe high sensitivity optical sensor ensuring accurate length of cut.

Capacity	Bottle diameter	Lable insertion length	Material	In/out diameter	Main power	Size	Weight
