

**Product Name :**  
Web Sealer Shrink Wrapping Machine

**Product Code :**  
KGLOB10251009

**Description :**

Web Sealer Shrink Wrapping Machine

**Technical Specification :**

Type Semi Automatic  
Usage/Application Shrinkable  
Film LD  
Packaging Material Plastic  
Automation Grade Semi-Automatic  
Capacity Variable  
Color VIP Bleu  
Material Mild Steel  
Voltage 220 V  
Driven Type Driven  
Phase three Phase  
Power 180 W  
Air Pressure Of Working 4 - 5 kg.  
Dimension 1500 X 500 X 500  
Weight 450 kg.  
Packing Speed Variable  
Sealing Temperature 200  
Air Pressure 4 - 5 kg

---

Bag Type Metalized  
Blower Motor 1/6 HP  
Condition New

Reckoned as leaders in this industry, we are providing our esteemed clients with excellent quality Web Sealer Shrink Wrapping Machine. Increases the strength of the cartons to sustain rough handling, the offered wrapping machine is designed using top quality raw material and modern technology under the guidance of our skilled professionals. The offered wrapping machine is provided in several specifications as per the requirements of customers. Moreover, our clients can avail the offered wrapping machine from us at nominal rates.

**Features:**

- Excellent speed
- User friendly
- Unique design

**Specifications:**

- Speed up to 6: 8 bags per min
- Manual feeding of bag/carton on the feeder conveyor
- Power 15: 18 kw, 3 phase
- (Connected)
- Running 8: 10 kw
- PLC controlled system
- Geared motor driven pre-pulling system for both packing rolls
- Heavy duty structure
- Shrink Tunnel Window Size (18" x 18") With Roller Conveyor
- Sensor Based Technology for sealing purpose.
- Special pneumatically driven side sealing system, two sealers to provide both side sealing to make it all around seal
- Digital Temperature Controller PID type
- Belt Conveyor for Product Moving
- Automatically Transfer of beg/carton after sealing into the tunnel
- Special double insulated chamber to reduce power losses
