

Product Name :
 Auto Carton Flap Folder 2.5" Tape Size

Product Code :
 KGLOB10251029

Description :

Auto Carton Flap Folder 2.5" Tape Size

Technical Specification :

Voltage Singal Phase
 Frequency variable
 Application Tapping Machine
 Material Ms Powder Coated
 Capacity Variable
 Power Singal Phase
 Tape Width 75 mm
 Product Code 6050
 Weight 250 kg
 Height Mm Adjustable
 Speed Variable
 Air Compressor no
 Driven Type Driven
 Packaging Type 2" or 3"
 Automation Grade Manual
 Size/Dimension Customized
 Type Side Drive
 Handle Ergonomic handle

Features :

This machine is useful for high speed Taping / Sealing of Cartons, from Top & Bottom both together. Therefore it has a double motor drive, for simultaneous box sealing from top/bottom. The machine is equipped with Rollers, for smooth movement of boxes.

Up down movement of the sealing assembly is by manual hand rotary crank. Different Box sizes can be easily accommodated. The box to be sealed is put on the in-feed rollers & given a gentle push, when the motorized conveyor takes over & starts pulling the carton forward. Here the top & bottom tape dispensers stick the BOPP type self adhesive tape onto the Top & Bottom flaps of the cartons simultaneously along with rollers pressing the tape for a tight seal. When the taping is over, the cutter blades cut-off the tape & the sealed cartons pass through to the out-feed rollers for delivery.

After the sealed box is discharged, it is ready for the next box. Also you can adjust the height and width for different cartons very easily.
