

Product Name :
Small Vacuum Packaging Machine

Product Code :
KGLOB10251035

Description :

Small Vacuum Packaging Machine

Technical Specification :

Dimension(L*W*H) 10feet x 24inch x 5 feet
Machine Type Semi-Automatic
Sealing Length(mm) 20-40 inch
Motor Power(W) 180 w
Power (Kw) 13 to 14 kw
Voltage(V/Hz) 220 v
Weight(Kg) 450 kg

Pioneers in the industry, we are offering an excellent quality Small Vacuum Packaging Machine. Used for pouch sealing, bag sealing, seal, these packaging machines are provided in various specifications in order to meet the variegated needs of clientele. Along with that, these packaging machines are quality tested on numerous parameters by our accomplished professionals. Moreover, we provide these packaging machines to our client at the most affordable rates.

Features:

- High strength

-
- Suitable for large volume of pouch packing
 - Optimum performance

Other Details:

- Ideal for large volume of pouch packing
- World class German technology
- Fast sealing of nitrogen flashing machine
- Easy to use and low maintenance

Specifications:

- Vacuum chamber size: 630Wide x 350 Depth x 115 Height
- Overall Machine Size: 680 Wide x 430 Depth x 750 Height
- Construction: All Stainless Steel 304
- Vacuum Chamber: Stainless Steel 304 and Mild steel cabinet
- Lid: Transparent Acrylic to observe the complete process
- Vacuum Pump: By default 250 or 600 Liters / Minute
- Sealing Bar: 620mm Long 1 number or 340 x 2nos
- Gas flushing: By default
- Packing cycle: 15 to 35 seconds depending upon the product & vacuum pump
- Electric Consumption: Less than 1 kw
