**Description :**

Batch Coding Conveyor

**Technical Specification :**

Usage/Application Pharma  
 Material Handling Capacity Variable  
 Type INK JET PRINTER CONVEYER  
 Material Stainless Steel  
 Belt Material PVC  
 Capacity Variable  
 Design Customized  
 Size 300mm x 1.5 Meter

We offer packing conveyor that are designed and engineered to fulfill the needs of any packing environment. Renowned for hassle free performance, it is extensively used for bottling and packaging. Fabricated using stainless steel table top, it contains dimensionally stable belt that is resistant to decay and rot and is flexible despite frequent cleaning. Less stretchable and light weight, the conveyor belt is highly wear resistant and generates very low noise. Customized solutions are also provided as required by the client.

**Specification:**

- Length: 10-20 feet

- 
- Belt Width: 0-10 inch
