

Product Name : Batch Coding Conveyor	Product Code : KGLOB10251051
--	--

Description :

Batch Coding Conveyor

Technical Specification :

Usage/Application Pharma
 Material Handling Capacity Variable
 Type INK JET PRINTER CONVEYER
 Material Stainless Steel
 Belt Material PVC
 Capacity Variable
 Design Customized
 Size 300mm x 1.5 Meter

We offer packing conveyor that are designed and engineered to fulfill the needs of any packing environment. Renowned for hassle free performance, it is extensively used for bottling and packaging. Fabricated using stainless steel table top, it contains dimensionally stable belt that is resistant to decay and rot and is flexible despite frequent cleaning. Less stretchable and light weight, the conveyor belt is highly wear resistant and generates very low noise. Customized solutions are also provided as required by the client.

Specification:

- Length: 10-20 feet

-
- Belt Width: 0-10 inch
