

Product Name :
Semi Automatic Liquid Filling Machine

Product Code :
KGLOB10261014

Description :

Semi Automatic Liquid Filling Machine

Technical Specification :

Output Per Min Up to 15-25
Number of Head Syringe 2
Fill Size 5 ml to 1000 ml
Electric Specification 0.5 HP
Frequency 50 Hz
Voltage 415 Volts

working on volumetric principle. This economic, compact and versatile model is general used in small or medium industry.

consisting of sturdy welded steel frame completely enclose in stainless steel and doors are provided to facilitate the servicing of machine.

Containers have to place one by one manually below the filling nozzles at platform of machine. The motor operated syringes fill desire pre set volume in container, bottle guide are provide for precisely match for centering of container below nozzles, to avoid spillage of liquid on container.

The dosing block with a hexagonal bolt fitted below syringes. This means fill size can be easily set.

Silent Features :

- Semi automatic with filling range from 5 ml to 1000ml.
- Accuracy 1% in single doze.
- Body covered with S.S. sheet.
- All contact parts S.S. 316.
- A unit to fill variety of liquid and can be used for various type of containers.
- Minimum change over time from one size to another container or fill size.

Technical Specification :

*Depends on Container size, fill size, neck diameter of container, nature of liquid & operator etc.

**We can supply as per customer requirements.
