

Product Name :
Semi Automatic Screw Capping Machines

Product Code :
KGLOB10261045

Description :

Semi Automatic Screw Capping Machines

Technical Specification :

Output Per Hour 1000 to 2400 Containers
Power 1 H.P
Voltage 415 V
Phase 3 Phase
Frequency 50 Hz

Our provided products are easy to use and no different parts require for various container diameters and sealing pressure can be varied to suit different gauges and size of caps. Apart from this, the offered machines are made available in multiple specifications to fulfill the requirements of several applications.

Features:

- Superior precision
- Impeccable performance
- Longer service life

Other Details:

- S.S. elegantly matt finished body
- Very compact & versatile model
- Built in front control panel
- Easy to set and No change parts require for different container diameter
- Sealing pressure can be varied to suit different gauges and size of caps
- Less vibration, low noise level, low power consumptions
- SS cladding or hard chrome plating of all exposed parts to ensure long life and resistance against corrosion

Change parts required:

- Cap Die if cap diameter change
