

**Product Name :**  
Bottle Inkjet Printer

**Product Code :**  
KGLOB10271016

**Description :**

Bottle Inkjet Printer

**Technical Specification :**

Dimension 12X19X8 cm  
Impressions 90 million char. of 2 mm  
Ink Drying Time Min. 10 seconds on plastic  
Inking Medium Disposable pre-mix ink cartridge  
Print Distance Max. 5 mm Down  
Printing Area 8 lines of 120 char each  
Printing Speed 65 Meters / min. for 1 to 8 line printing  
Supply Voltage 90 to 220 Vac +/-10%  
Weight 3 Kg,15 Kgs with stand

**Features:**

- Stainless steel rugged construction. All machine stands, product sensor with stand, print head stand included with the system. Connection to print head via 2 m flexible cable. The print module is well protected & insulated in the Stainless steel tubular print head
- Graphic 8.4" WYSIWYG Colored backlit liquid crystal Touch Screen Display with Real-time clock and calendar, expiry date, Scannable Bar Codes, LOGOs, Serial Nos. (Counter), with 9 levels of

---

Bolderisation, message reverse or invert print & storage of 256 messages of 1 to 8 lines each of 120 characters per line with facility for password lock

- Push-fit disposable solvent/oil based pre-mix ink cartridge for ease of use. Uses Ethyl alcohol based simple inks that do not require any mixing or viscosity adjustments
- Latest technology high speed 128 nozzles, 18 mm XAAR Piezo-jet print head which is very high resolution & gives the very high quality of the print
- An instant startup within 1 minute of the first print & instant shutdown within 1 minute with print head cleaning. Other printers require up to 30 minutes for each of the procedures & require a trained engineer
- The system is PC linkable via the USB or Wi-Fi for downloading of Logos, Fonts, data, etc. using Remote Manager or Flex code software
