

Product Name : Paste Filling Machines	Product Code : KGLOB10271080
---	--

Description :

Paste Filling Machine

Technical Specification :

Material Stainless Steel
 Packaging Type Wooden Crate
 Power Consumption 300 Watt
 Usage/Application Industrial
 Automation Grade Semi-Automatic
 Machine Type Semi-Automatic

Paste Filling Machine is perfect for handling products with different viscosities with contact parts made of SS 304 / 316. It possesses clean cut-off for drip free filling, positive displacement type suction as well as delivery stroke. The piston is a specially designed one, which does suction and filling in one stroke. It has quantity adjustment screw for setting the desired volume. Suitable for cream, Mango pulp, Paint, Paste, Chywanprash, Gulkand, Kiwam, Adhesive, Grease, etc.

Filling Range	3 – 500 gms ± 1 with change parts	
Can Fill	Tubes, Bottles , Pouches	
Output	20 - 30 jars/min	20 fills per minute
Motor	0.75 HP, 230 Volts / 415 Volts.	No Power
Dimensions / Weight	520 x 620 x 750 mm / 200 kgs	8" X 10" X 24" / 20 kgs.
