

Product Name :
Automatic Air Jet Cleaning Machine

Product Code :
KGLOB10271115

**No image
available**

Description :

Automatic Air Jet Cleaning Machine

Technical Specification :

Direction Of Movement Linear
Capacity As Customer Requird
Output Hour 50BPM
Machine Type Automatic
Working Height As Required
Air Pressure 6-8 Bar
Material Aluminium

Ionized Air Jet with Vaccume System.

- i) 4 Nos. Nozzel set of ionised Air with Vaccume Cup.
- ii) Up -Down Nozzel Ht. Adj. system.
- iii) Vaccume filter with filter element for Vaccume Blower.
- iv) Anti-static ionised system.

Machine Structure

- i) Construction including main machine frame S.S. 304.
- ii) All Contact Parts S.S.304, Nylone/ UHMW and alluminum alloy.
- iii) All Contact Parts S.S.304, Nylone/ UHMW and alluminum alloy.

Safety Enclosure

i) S.S. 304 Enclosure with Polycarbonate door.

S.S. Slat conveyor

i) 1.5 Mtr. (L) S.S. slat chain conveyor with Variable Speed drive

Advanced Automation and Electronics

i) Advance PLC and HMI based controlling with fully synchronised operation.
